

Highlights:

- Mesh perforation with hexagonal pattern
- Swing handle with cylinder lock
- Installable on front and rear

Product information:

The SPR842GL is a perforated steel grill door, which replaces the standard included tempered glass door for SPR series 19" rack cabinets with a height of 42 U and width of 800mm. The mesh perforation with a hexagonal pattern provides optimal airflow through the cabinet. The swing handle with cylinder lock safely locks the equipment inside.

Product Features:

Unit height	42 HE
Weight	10.55 kg
Colours	Black (RAL9004)
